Dear Sir/Madam,

RE: HUMBLE REQUEST FIVE(5) CLASSROOMS

KALONGONI IS among the public Government Primary School in KENYA. Its found in KIRIFI County, Chakama location, Makongeni Sublocation in KISIKI villages.

This Primary School was started by the existing Communities, - Wagiryama and Wawatha in the year 2012 after realizing the importance of Education, Distance, Drought and other weather calamities.

The School has 20 Acres of Land authorised by the Community through land ownership of the clan leaders. This was documented through Chief's letter and assigned by the members of the Community as an approval for any intermediated projects development such as,-
- School

- Toilets
- Dispensary
- Electric Solar Panel and many others.

In here, our humble request of five (5) classrooms is to meet the demands and requirement of the school children.

Currently the school is upto grade Four;

Apperently the classes are

1. Baby class
2. ECDE PPI
3. ECDE PP II
4. Grade I
5. Grade II
6. Grade III
7. Grade IV

These are seven separate classrooms but as we are speaking, we have only two classrooms. The rest of the classes, learning is conducted under tree shade during rainy seasons, hot days and strong winds days learning is stoped and children are asked to remain at home. The school has an enrolment of 85 children. This situation is really pathetic. Community children are forced to walk and cross dangerous river a distance of seven kilometres to reach a nearby school.

During drought and river floods wild animals trawls close the river bank. Our children are forced to remain at home as they fear crossing the river. As for our education system here in Kenya, transition is
